FOR IMMEDIATE RELEASE
October 5, 2015

Elections Office Warning to Voters About Mailers

Election season is upon us and with that comes all of the election and/or political mailers. We offer a warning that some of the distributors may be using incorrect or outdated information. For instance you may receive something asking you to register to vote even though you are already registered. Some voters have received these mailers addressed to minor children who reside with them or for adult children who live out of state. You also may get several mailers asking you to request a mail ballot (absentee ballot) even though you already have a request on file. These mailers cause confusion and challenge the faith voters put into their elections office.

Supervisor of Elections, Charles Overturf, would like to remind you that these mailers are in no way affiliated with the Putnam County Supervisors of Elections Office. If you have any concerns regarding your voter registration status you may check it at any time by clicking on this link: <http://soe.putnam-fl.com/Voter-Registration/Voter-Status> or by calling the Putnam County Supervisor of Elections office at (386) 329-0224.
